RESEARCH PROJECTS:

I have been able to earn research funding as PI and Co-PI worth **Billions of Rupees** from a variety of national and international funding agencies. These include my current projects on control of Tuberculosis (1.2 billion), treatment of First Episode Psychosis (70 million), and Gender equity in global health research (worth 5 million). Previously, I have worked as PI of three research projects funded by HEC (worth over 100 million). Earlier, I secured over 50 million on research projects related to CPEC, counter terrorism, child protection, and women's empowerment. Overall, I have contributed Millions of Rupees to the University of Peshawar from external sources.

RESEARCH CONFERENCES

I have organized several conferences and presented my scholarly work in over two dozens of international conferences across the world, including UK, France, Germany, Thailand, Italy, and Afghanistan. In addition, I have organized four international conferences as Chief Organiser.

RESEARCH PUBLICATIONS:

I have published over **40 research articles** in reputed journals, including high-impact international journals on a wide range of issues including culture, gender issues, crimes and violence, terrorism, and climate change. More recently, I have published five high impact articles on public health in world reputed journals such as BMJ open, and Word Journal of Psychiatry. Additionally, I have also published two Book Chapters in internationally reputed publishers.

RESEARCH SUPERVISION:

I am actively involved in supervision of research students. So far, I have successfully supervised 07 PhD and 10 M.Phil., and about 100 BS students. 03 more of my students will submit their PhD this year.

INTERNATIONAL EXPOSURE

I have travelled to my countries and have waste exposure to the academic and cultural environment of over a dozen countries, including China, India, Thailand, UK, Germany, Portugal, Italy, France, etc.
