This program not only improves my knowledge in the field of antiquated religious perceptions but also gives me a broader perspective towards the new and rising philosophies. The topic of my research thesis being, **A COMPARATIVE STUDY OF CONFLICT AND ITS RESOLUTION IN THE PERSPECTIVE OF SEMITIC RELIGIONS**, has enlightened me about the field of Conflict Resolution, its historical development and its vitality in the contemporary world. It has enabled me to work as a Conflict Resolution trainer in both the secular as well as religious settings.
