Brief Statement of Research Interest

I have an experience of teaching Arabic Literature , Arabic English Translation , for almost 35 years. I had this experience with Arabs & non Arabs during my teaching & studying. I studied and research Rhetoric of Arabic language. In the light of my experience in the field of Arabic Language and its Rhetoric, I feel that my experience could be effectively utilized for the promotion of Arabic Language, for the promotion of strong links among the other languages like, Urdu & English, in the Arab world and for the Islamic world too. I have a special interest in research.

I want to do some creative work in Ethics & in women studies. I am sure if I will be granted opportunities I could show my talent in a better way ever than before.
